

Technology Vendor for Biologically Inspired Intelligence

The market need

Mills Davis

.. multi billion dollar markets...

The semantic challenge...

AI (*artificial intelligence*), ...

KM (*Knowledge management*), ...

“we” tried various methods of artificial concepts, - they work , - but not as “intelligent” as we hoped or expected and need in order to address the mass markets ...!

Too much logic...!

*Holistic thought, intuition,
creativity arts & music*

We need:

Biologically Inspired Intelligence

Creative

*Holistic thought, intuition,
creativity arts & music*

LOGIC

*Analytic thought, language,
science & math*

BII | Biologically Inspired Intelligence combines left
and right side of the brain...

How to get to BII ?

Biologically Inspired Intelligence

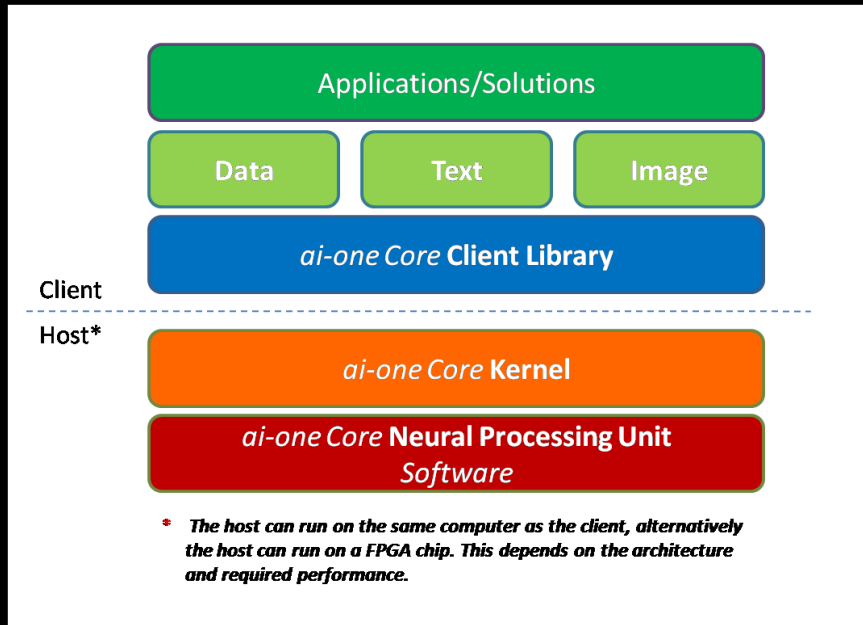

What if you would be able to add-on BII
with a API/Library of only ~ **500KB!**

ai-one™ API / LIB

the easy way of making intelligent applications

It works all for Pixels, Vectors, ASCII...

like: Images, text, data, sound, movie, ...

OEM Partner, Vendors with their Applications...

semantic system

Multiple Vertical Markets

... The technology can be applied as HW or SW

- Biometry:** ➤ Pattern recognition ...
- Forensics:** ➤ Tracks, patterns, profiles ...
- Intelligent Services:** ➤ Profiles, behavior, semantics
- Security:** ➤ Cryptography, compression
- Fraud:** ➤ Fraud, camouflage...
- Sociology:** ➤ Behavior- & human profiles
- Data bases:** ➤ Analyses, data mining ...
- Computing:** ➤ Intelligence in computing
- Life Science:** ➤ Pattern recognition
- Pharmacy:** ➤ Clinical tests, profiling
- Dermatology:** ➤ Cosmetics, pattern recognition

and many vertical markets more ...

Thank You!
