## Press Release

### Dr. Babak Nemati to Lead Development of Life Science Applications with ai-one™ Technology

*La Jolla CA | Zurich Switzerland June 17 2010* - ai-one inc., a provider of software development technology (SDK) for semantic associative search and semiotic analysis, signed Dr. Nemati and his firm Strategic Intelligence as subject matter experts for life science applications. Dr. Nemati's firm will provide scientific and industry domain expertise for the development of applications in medical imaging, drug discovery research tools and genomic sequencing.

Dr. Nemati is a veteran of the healthcare industry, serving in executive roles at leading corporations such as Johnson & Johnson. While at J&J, he served as the Director of Surgical Oncology for Ethicon, and Chair of Medical Optics for the Corporate Office of Science and Technology. In these roles he was responsible for strategic planning for new franchises within J&J, assessment of new and emerging technologies, and leading or contributing to licensing and acquisition negotiations with emerging companies.

Outside of J&J, Dr. Nemati has served in executive roles for emerging medical device and biotechnology companies, in a wide range of specialties ranging from oncology, general surgery, ophthalmology, and women's health, to dermatology and plastic surgery. He holds several patents in the field of medical optics, and has published a number of original articles in refereed journals. Additionally he has served as a member of the Advisory Board for the Medical Technology Program of Lawrence Livermore National Laboratory, Plebys International, and Nanoverse.

**About Strategic Intelligence, Inc.** (SI) is focused on the identification and evaluation of new and emerging technologies in life sciences and the creation of break through strategies for the successful development, launch, and commercialization of the associated product opportunities. For further details, please visit our website at [www.sicorporation.net](http://www.sicorporation.net)

**About ai-one inc.**, based in San Diego and Zurich, the company has developed an adaptive holosemantic data space with semiotic capabilities ("biologically inspired intelligence") that allows users to quickly analyze and discover meaningful patterns of interleaved text, time related data, and images. With the ai-one™ SDK, developers create intelligent applications that deliver better sense-making capabilities for semantic discovery, knowledge collaboration, sentiment analysis, image recognition, data mining and more. It also provides complex AI with reasoning and learning capabilities that get smarter with each use. [www.ai-one.com](http://www.ai-one.com)
