Press Release

Kopp Solutions to Lead ai-one's SME Solutions for Europe

La Jolla CA | Zurich Switzerland Jul 19 2010 - ai-one inc., a provider of software development technology (SDK) for semantic associative search and semiotic analysis, signed Martin Kopp and his firm Kopp Solutions GmbH as subject matter experts for project management, business development and sales support for enterprise accounts.

Martin Kopp, CEO is a senior consultant with more than 25 years experience in e-business, IT technologies, organization and processes. Based on his technology background and experience managing large IT projects for PWC, he built a proven track record converting new business ideas into working solutions. Kopp and ai-one have worked together on several projects in the past and Kopp is also supporting business development for ai-one OEM Partner Brainup Systems GmbH.

Kopp-solutions GmbH is a SME Consulting company which focuses on the implementation of effective data usage concepts and developing and introducing new business models. In this role, Kopp-solutions developed and introduced solutions to use data in supply chains across companies. For further details, see www.kopp-solutions.ch.

ai-one inc., based in San Diego and Zurich, has developed an adaptive holosemantic data space with semiotic capabilities ("biologically inspired intelligence") that allows users to quickly analyze and discover meaningful patterns of interleaved text, time related data, and images. With the ai-one™ SDK, developers create intelligent applications that deliver better sense-making capabilities for semantic discovery, knowledge collaboration, sentiment analysis, image recognition, data mining and more. It also provides complex AI with reasoning and learning capabilities that get smarter with each use. www.ai-one.com
