## Press Release

### SWISSKENKO LTD Adds Topic-Mapper API Experience and Offshore Development to ai-one's Network

La Jolla CA | Zurich | Berlin March 9, 2011 - ai-one inc., a provider of software development technology (SDK) for semantic associative search and the development of learning machines has signed Andreas Koller and the SWISSKENKO team to make available experienced Topic-Mapper developers for OEM and enterprise customers.

SWISSKENKO served on the development team for Brainup System's new product based on ai-one's Topic-Mapper API. "Andreas Koller's team has built a great product for our customer, Brainup. Their experience with our API will help accelerate the launch of other customer products," Walt Diggelmann, CEO of ai-one, inc.

**About SWISSKENKO LTD.** [SWISSKENKO LTD](http://www.swisskenko.com) is a Swiss/Kenyan company with its headquarters in Eldoret, Kenya. Founded in 2008 by Andreas Koller, CEO, the outsourcing department was launched in 2010. The current team of 10 software engineers creates high quality software and provides web development services for Swiss, European and Kenyan customers. Our outsourcing services include consulting, planning, project management and programming for Business Process Outsourcing (BPO), Application Service Providing (ASP), and product development. The Swiss management team splits time between Zurich and Eldoret. [www.outsourcing.co.ke](http://www.outsourcing.co.ke)

**About ai-one inc.,** ai-one provides an "API for building learning machines". Based in San Diego, Zurich and Berlin, ai-one's software technology is an adaptive holosemantic data space with semiotic capabilities ("biologically inspired intelligence"). The Topic-Mapper™ SDK for text enables developers to create intelligent applications that deliver better sense-making capabilities for semantic discovery, lightweight ontologies, knowledge collaboration, sentiment analysis, artificial intelligence and data mining.
