Press Release

Application Developer Lorette Intelligence GmbH to Help ai-one Clients Go Mobile

La Jolla CA | Zurich | Berlin April 8, 2011 - ai-one inc., a provider of software development technology (SDK) for semantic associative search and the development of learning machines has signed Lorette Intelligence GmbH as an IT Services Consulting Partner.

“Lorette’s expertise and services infrastructure will accelerate application development as everyone is going mobile. They are focused on enabling additional, exciting functionality in new or existent applications for OEM clients.” says Tom Marsh, COO of ai-one.

About Lorette Intelligence GmbH, Based in Sommerhausen Germany, Lorette is an innovative technology solutions provider in the machine vision and artificial intelligence segments. Founders Hans Steinmann and Rian van Staden work closely with partner companies to integrate proprietary analysis tools, distributed application paradigms and middleware to tie new solutions into existent workflows and legacy data processing infrastructure. Lorette’s expertise includes remote, mobile and distributed applications that combine state-of-the-art machine vision, artificial intelligence and physical sensor technologies to create new and innovative solutions for OEM and enterprise clients.

About ai-one inc., ai-one provides an “API for building learning machines”. Based in San Diego, Zurich and Berlin, ai-one’s software technology is an adaptive holosemantic data space with semiotic capabilities (“biologically inspired intelligence”). The Topic-Mapper™ SDK for text enables developers to create intelligent applications that deliver better sense-making capabilities for semantic discovery, lightweight ontologies, knowledge collaboration, sentiment analysis, artificial intelligence and data mining.
